

Partners In Practice Animating Mentoring Institute

Bringing Life to the Partners In Practice Mentoring Model in Your Community

The vision of *Partners In Practice* is that every child care practitioner belongs to a mentoring culture. Within that culture their voices are articulated, expressed and heard in a safe, ethical environment.

Members of the mentoring culture

- ... support and recognize each other
- ... are reflective practitioners
- ... exercise honour, respect and modesty
- ... engage in continuous growth and learning

The **PIP Animating Mentoring Institute** will provide the tools for you to realize this vision within your ECE community.

In your animating training you will learn how to

- develop a vision for mentoring in your community;
- examine the values of your community regarding mentoring and compare them to the values within the Partners In Practice Mentoring Model;
- identify the resources that exist and need to be developed to animate mentoring in your community;
- develop a plan to animate and sustain mentoring in your ECE community based on your analysis.

You will receive the following Partners In Practice publications

- The Partners In Practice Mentoring Model: Reflection, Caring and Sharing
- Establishing a Mentoring Culture in Communities/Field Practice Workbook
- Skill development tools (6 complete training modules)

You will meet colleagues from across Canada who share your interest in Animating Mentoring in your community.

Presenters are The Partners in Practice Group:

Elaine Ferguson, Tammy McCormick Ferguson,
Carmella Singleton, and Allison Soave
